

FEED YOUR
SUCCESS.

NS NATIONAL STANDARD

Because performance comes down to the wire.

WHERE RELIABILITY COMES STANDARD.

Since 1907, National Standard has led the American charge to manufacture high-quality wire to feed your success. Our unparalleled wire expertise has shaped the industry and continues to drive innovation today. Because wire is our singular focus, no other company knows more. When reliability counts, count on the wire experts who are here for you for the long haul. National Standard. Dedicated to wire — and you.

NATIONAL STANDARD DISTRIBUTORS — PARTNERS IN SUCCESS.

At National Standard, our word is as good as our wire. That's why we select and work with only the best-in-class distributors, each aligned with our standards of transparency and knowledgeable technical support. Our distributors provide local responsiveness that comes from being part of the communities they serve. We treat our distributors like part of the National Standard family, because that's how they treat our customers.

WE MAKE THE WIRE THAT MAKES OUR WORLD STRONGER.

National Standard's integrity — in our people and our wire — is trusted by leading companies across diverse industries. Our wire delivers our energy and safeguards our highways. It frames our skyscrapers, strengthens our tires and softens our beds. National Standard wire is part of the fabric of our country.

BECAUSE PERFORMANCE COMES DOWN TO THE WIRE.

With National Standard, you always know what you're getting: high-quality wire that performs consistently, time after time. That's because our wire is made to our demanding standards in our state-of-the-art plants. We also source steel from an affiliated steel mill, which is a fellow subsidiary of our parent company, Heico. The result is predictable quality that lets you avoid downtime and operate at your efficient best.

National Standard can also provide import mild steel welding wire.

INDUSTRY-LEADING INNOVATION.

From our earliest days providing tire bead for our nation's first generation of automobiles after the turn of the century, National Standard has been on the forefront of innovative wire solutions. Today, our advanced products including Satin Glide® and premium copper-coated NS Plus® welding wire set the standard in excellent feedability.

National Standard's innovative CopperFree™ welding wire is renowned for superior performance in reducing smoke and spatter.

National Standard's industry-leading Tru-Trac® packaging maximizes your productivity like no other with its twist-free let-off and smaller dispersion pattern than traditional drum packages.

National Standard offers a comprehensive line of welding wires. Ask our experts about your more specialized wire needs at 800-777-1618.

INVESTING IN EXCELLENCE.

National Standard is backed by the global strength and resources of our parent company, Heico. As a privately held American holding company devoted to manufacturing, construction and industrial services, Heico has the ability to make decisions that serve market needs and customers rather than shareholders. Heico's unprecedented investments in advanced technology, including our leading-edge drawing benches, set National Standard's facilities apart in the wire industry.

WE STAND BY OUR PRODUCTS AND YOU.

At National Standard, we're proud of the quality products — and relationships — we build every day. We manufacture our wire to demanding specifications with quality assurance for uniformity and performance. If you experience any problems with our products within one year of the shipping date, we promise to make it right. Just let us know and we will make sure you get the help and/or replacement product you need. We will also devote our resources to making sure you do not experience the same issue again.

STRAIGHT. FORWARD. SINCE 1907.

Consistent performance. Maximized productivity. Innovative packaging. People you can count on. National Standard. Since 1907, the most trusted name in wire.

Because performance
comes down to the wire.
